Discover DS4

The First Fusion of Four Technologies

Remote Start  Security  Interface  Bluetooth®
DS4 is four key mobile technologies integrated into one single device connecting you to the future of digital remote start and security.

REMOTE START · SECURITY · INTERFACE · BLUETOOTH®

DS4 is available for these Directed brands:

VIPER  CLIFFORD  AstroStart
AUTOSTART  AUTOMATE

www.directed.com
### The Benefits of DS4 Digital Technology

#### Benefits for Installers
- Auto firmware lookup from the vehicle identification number
- Smart D2D 2.0 Bus Ports to connect peripherals
- Simplified documentation that provides just what’s needed

#### Benefits for Dealers
- New and exciting features that will drive consumers into your store
- Configurable and expandable inventory reduces cost
- Faster installations mean more vehicles through the bay, which equals more profits

#### Benefits for Consumers
- Interface included — no additional purchase required
- Smartphone control via Bluetooth Smart® technology
- Optional shock and tilt sensors and siren provide ultimate protection for the vehicle

---

#### INCLUDED WITH DS4!

### 3X Lock Start!
For customers that prefer to keep their original factory remote, Directed DS4 Systems provide seamless integration with the OEM remote right out of the box!

This **3X Lock Start** compatibility, enables remote start by pressing the factory remote transmitter’s lock button three times to remote start the vehicle.

### Smartphone Control!
For a more convenient and interactive connection to the vehicle, Directed DS4 Systems provide smartphone control via Bluetooth Smart® technology and the Directed SmartStart mobile app.

The Directed SmartStart Mobile App is available from:

- [App Store](https://apps.apple.com)
- [Google Play](https://play.google.com)

---

DS4 provides the simplest of solutions for the widest range of vehicles

**Simple** delivery of a complex system utilizing the latest technologies to simplify the installation process and provide extended functionality.

**Seamless** design that integrates with the vehicles existing systems to enable a connected car experience like no other.

**Smart** ecosystem that does all the thinking for you. Auto-lookup of vehicle firmware, simplified installation docs, and system configuration at your fingertips.

**Solutions** that fit any vehicle that comes your way. Feature rich vehicle firmware and OEM fit t-harnesses cut installation times by 75%*.

*Your actual installation times will vary.
The **DS4** Infrastructure

**Universal. Intuitive. Wireless. Complete.**

**DirectLink**
Direct proprietary wireless connection between the DS4 modules and wireless devices via integrated Bluetooth® technology.

**Directechs User Interface**
The All-New Directechs.com is the go-to resource for everything **DS4**.

**Embedded Software**
All the software is already built in to **DS4**, including Remote Start, Security, 3X Lock Start, Bluetooth®, and more.

**Firmware**
Solutions for more than 90% of the vehicles on the road today.

**T-Harnesses**
Widest array of vehicle-specific T-harness solutions to speed up and simplify installations.

**Dynamic Documents**
Installation documents that are generated specifically for the make, model, and year vehicle you’re working on. Just the information you need!

**Directed SmartStart**
Easy upgrade to Directed SmartStart for the ultimate in vehicle remote start, control, and GPS features.
Directed has redefined the industry with the new **DS4** Remote Start systems that can be configured as remote start or remote start with security.

The new **DS4** systems have all new universal D2D 2.0 peripheral connections on one side of the module and all vehicle connections on the opposite side, resulting in an easier and cleaner installation.

The **DS4+** system also features 5 high-current relays to support remote start functions on all vehicles. Bluetooth® enables direct wireless connectivity, reducing errors and installation time, and provides near-range smartphone control for consumers.

Inside **DS4+**

The Digital Future Begins Right Here.

- Universal D2D 2.0 Ports to Connect All Peripherals
- High-CURRENT Remote Start Relays On-Board (**DS4+ Only**)
- Low Energy Consumption Bluetooth®
- Embedded Interface Supporting More Than 12,000 Vehicles
- A Wide Array of T-Harness Solutions

Inside the **DS4**

Half the size but just as powerful!

- Universal D2D 2.0 Ports to Connect All Peripherals
- Low Energy Consumption Bluetooth®
- Embedded Interface Supporting More Than 7,000 Vehicles

**Add Security to DS4!**

**DS4SU**
DIRECTED DS4 SECURITY UPGRADE KIT

Create a complete and fully-featured **DS4** Remote Start and Security System for full vehicle security and convenience.

**Includes:** 6-Tone Mini Siren · Shock/Tilt Sensor
At the center of custom configured DS4V Digital Remote Start Systems are the DS4 System Module, which includes wiring harness and temp sensor, and the DS4V+ System Module that also includes high-current relays.

Pair the system module with the appropriate T-Harness and, with the included 3X Lock Start compatibility and Smartphone Control, a basic DS4 remote start system can be installed.

Choose an RF Kit to upgrade the system with a wide range of industry-leading remote transmitters. You can even add Viper SmartStart, for the ultimate in vehicle remote start, control, and GPS features.

Or create a feature-rich Remote Start and Security system by adding the Security Upgrade Kit for full vehicle protection.

INCLUDED FREE!
3X Lock Start seamlessly integrates with the factory OEM remote

INCLUDES!
Smartphone Control via integrated Bluetooth®

T-HARNESS
Vehicle-specific solutions simplify and speed up installations

 INCLUDED FREE!
